### THE BRAND

Inseparably linked to all the other Armani brands, Armani/Casa provides a platform for Giorgio Armani to set out his vision of the interiors: intimate special places with a mood of emotional pleasure, somewhere to relax and entertain guests surrounded by beauty and elegance. The purpose of the Armani/Casa research is to communicate an atmosphere, to dress everyday living spaces in the same way Armani fashion creations dress people.

The home imagined by Giorgio Armani is a place that provides the pleasure of well-being. Armani/Casa modernizes the way spaces are used by completely removing anything superfluous, redundant and useless. Nothing is left to chance, and every detail is meticulously conceived to express the idea of subtle luxury.

The Armani/Casa aesthetic philosophy focuses on simple lines and perfect proportions, enriched by precious materials, refined finishes, and elegant textiles. The quest for sophisticated comfort turns into the creation of a total home setting, which uses a modern and rational design language. Inspirations from Art Déco and Eastern cultures blend with contemporary influences, in a constant dialogue with the world of fashion.

Today Armani/Casa offers a complete range of products for home furnishing: from furniture to accessories, from fabrics to wallcoverings, from kitchen systems to bathroom concepts.

## SALONE DEL MOBILE 2019 | NATURE AND THE EAST

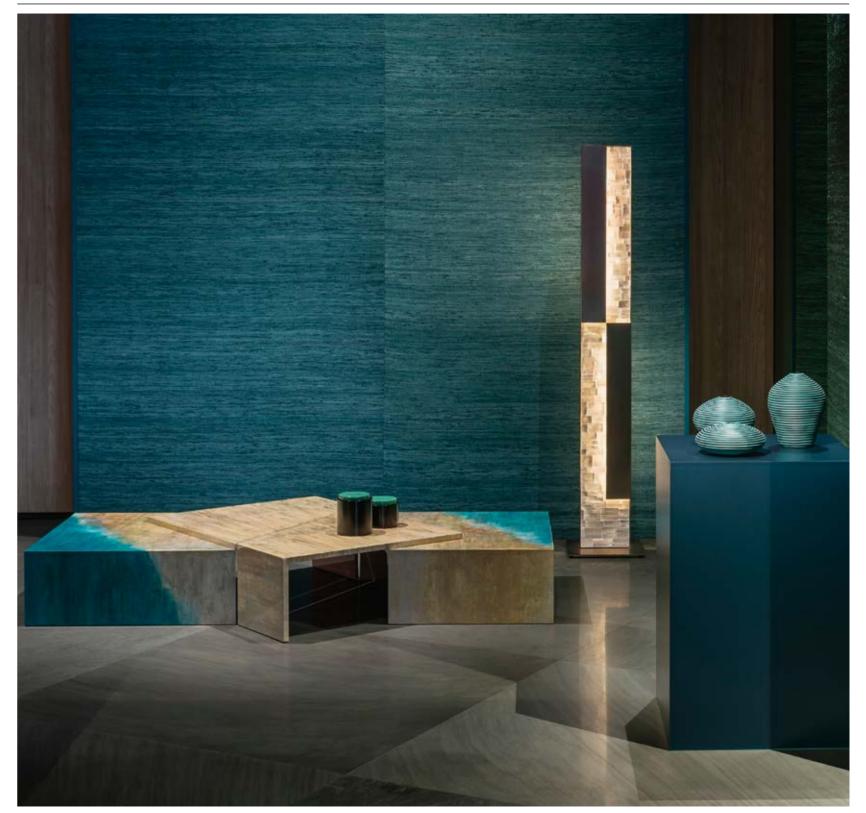

The aesthetic of Armani/Casa was born from a subtle exchange between sensibility and taste, a complex process that can give rise to an unexpected harmony between different cultures. In the same year that Giorgio Armani is presenting his first show at Armani/Silos dedicated to architecture – *The Challenge*, showcasing the work of Tadao Ando – he is also showing his new Armani/Casa collection that transforms parallels and similarities between cultures into furniture and décor at Armani/Teatro, the venue that Tadao Ando himself designed.

The overarching theme is an expression of lightness, delivered through an exploration of subtle thicknesses, from the structures of furniture to the woven textures of textiles, which are inspired by those of the *obi* (the Japanese sash worn mainly with the kimono). This notion is also expressed on seemingly rigid surfaces such as wood and leather, reshaped to suggest a new, playful identity. Oriental charm makes its return in allusions to Japanese iconography: nature, hot springs, the shape of the *tsuba* (the Japanese sword guard), the lightness and fluidity of the waves.

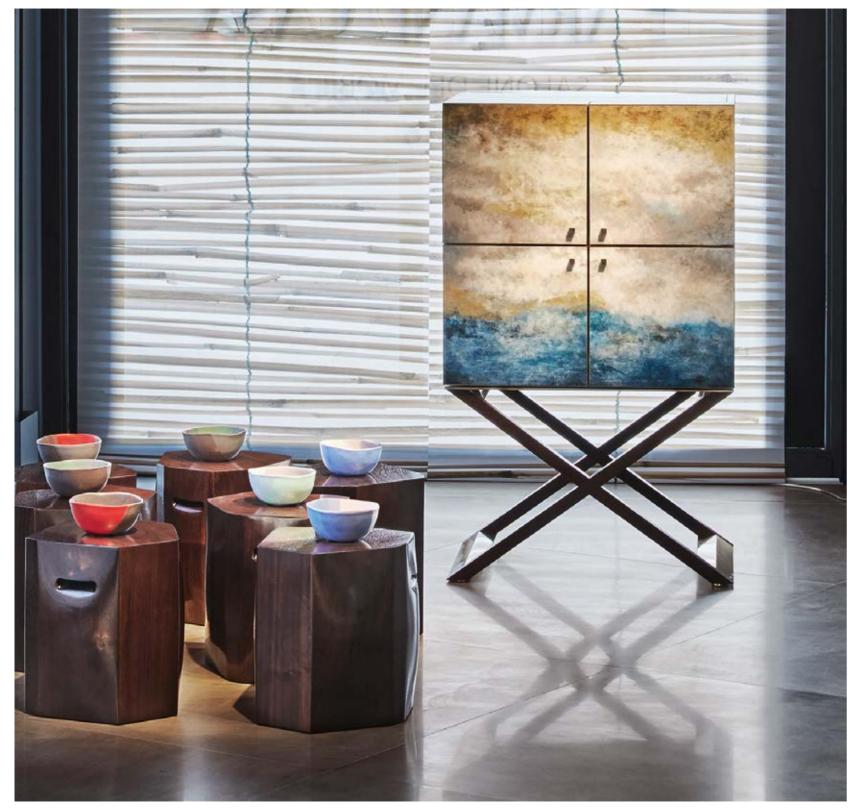

An almost ethereal sensation is conveyed by the reference to these natural elements in motion: the shades of the clouds, Asian landscapes with trees and hills that create infinity-effects, blended colors reminiscent of a sunset or reflections on the water. Captured from nature and coursing waters are the muted shades of pink, apple green and light blue, accompanied by touches of classic colors combined with brighter, more vivid tones such as red, forest green and petrol blue. These hues are emphasized by artisanal craftsmanship and exquisite materials, whether Murano glass or precious embroideries. Noble traditions of working with classic elements and components meld with the use of innovative materials like resin and synthetic woven "textiles" developed for the aerospace industry.
