Frigerio

This year Frigerio takes on an important challenge by presenting new intriguing novelties conceived by its R&D Center under the supervision of Gianfranco Frigerio, the Creative Director, and a new collection designed by a well-known Italian Architect: Umberto Asnago inaugurating a new collaboration.

Quest'anno Frigerio affronta un'importante sfida presentando nuovi interessanti prodotti creati dal Centro Sviluppo e Ricerca sotto la supervisione di Gianfranco Frigerio, Creative Director, e una nuova collezione disegnata da un famoso architetto Italiano: Umberto Asnago inaugurando una nuova collaborazione.

FRIGERIO MEETS UMBERTO ASNAGO

Frigerio is a family-run business, with its roots in an area of Lombardy called "Brianza", renowned for furniture manufacturing. Even today, all over the world "Brianza" stands for manual expertise and technical prowess. Now in its third generation, the Company is a well-established, successful business in the interior furnishings sector. It is known and esteemed for its wide range of products and furnishing solutions, and the high quality of the materials and workmanship that go into making them. Recently the entire headquarter was transferred to a new site, providing it with larger, more prestigious premises.

Frigerio è un'azienda familiare che affonda le proprie radici in un territorio noto per la produzione di elementi d'arredo, la Brianza, luogo che ancora oggi nel mondo è sinonimo di sapienza manuale e abilità tecnica. Giunta ormai alla terza generazione, l'Azienda è una realtà affermata e consolidata nel settore dell'arredamento d'interni, conosciuta ed apprezzata per la varietà di proposte e di soluzioni d'arredo e per l'alta qualità di materiali e lavorazioni che le contraddistingue. Recentemente l'intera produzione è stata trasferita in una nuova sede, uno spazio di maggior estensione e di grande rappresentanza.

CONCEIVING A PHILOSOPHY

"My design, I should say it is quite an artisal one, I still make my drawings with the drafting machine. I still make my drawings on cardboard."

"Il mio design, devo dire che è un design abbastanza artigianale, disegno ancora con il tecnografo, disegno ancora sul cartoncino."

"I like the shapes with some curves, with some softness and some contradictory signs. I was born with solid wood, I was born together with carpenters who used solid wood to do everything."

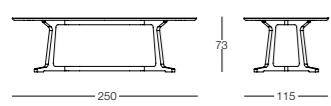

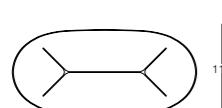

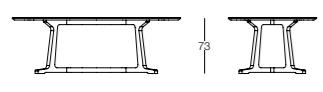

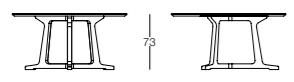

"Mi piacciono le forme che abbiano un po' di curve, un po' di morbidezze, un po' di segni contraddittori. Sono nato con il legno, sono nato in mezzo a dei falegnami che usavano il legno per fare tutto."

APPEALING
AND STYLISH

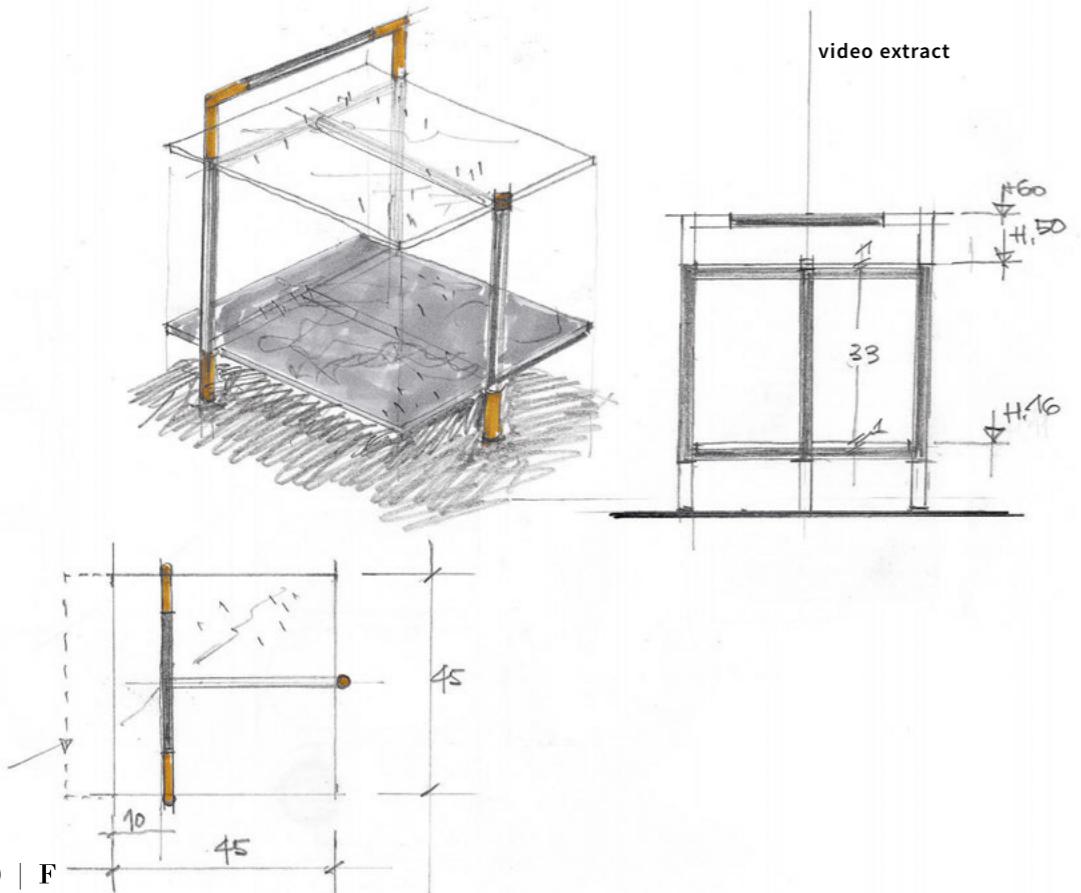

DETAILS ABOVE ALL

"It is difficult to do something new, at this point all products are concentrated into details. The details are what identify the product, they make it nice and peculiar, they make it unique. I always try to find some details to add without trivializing it and without making it too much."

"È difficile fare qualcosa di nuovo. Ormai tutti i prodotti vertono sui dettagli. I dettagli sono quelli che identificano il prodotto, lo rendono piacevole, lo rendono particolare, lo rendono unico. Io cerco sempre di trovare qualche dettaglio da aggiungere senza banalizzarlo e senza caricarlo troppo. "
