For our production we select only the most precious leathers from master Italian tanneries. Butter soft nappa leather and smooth natural calf skins are used to craft our pieces, with an elegant and sophisticated color palette that perfectly complements contemporary and classic interiors.

Each piece is expertly hand-crafted in Italy by our team of highly-skilled artisans. Many years of experience and passion are necessary to acquire the ability to craft with such perfect attention to quality. The knowledge is passed down from one generation to the other, as a reflection of centuries old traditions.

The weaving and braiding of the leather executed by experienced hands, is an art in itself and represents the stylistic signature of the collection.

Each piece undergoes rigorous quality controls and is then individually wrapped in an elegant Riviere silk pouch and gift box.

LEATHER COLORS

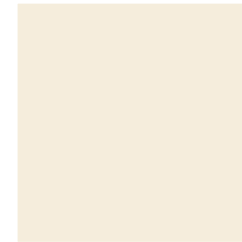

Leather is the key material to the collection. The most precious skins are selected from the best Italian tanneries to guarantee the quality of the finished product.

The lacquered wood pieces are made with a multiple layer lacquering technique. It is a long and complex procedure since the layers must dry for many days before being carefully hand polished several times until the smooth and perfectly glossy finish of the surface is reached.
